

BioStore FasTrak Cashless Catering Solution for Secondary Schools

Improve the administration and management of cashless catering

BioStore's FasTrak Cashless Catering system is becoming the standard solution for secondary schools, with its uncompromising quality and reliability in delivering school meal services.

FasTrak's Secondary School solution improves the administration and management of cashless catering through fast and accurate reporting. Students can easily make payments using a smart card, biometric identification or pin pad, with options including meal deals and grab-bags to provide more choice for students and encourage uptake of school meals.

Integrating with the school's Management Information System (MIS) allows multiple applications to synchronise with FasTrak; ensuring a seamless experience when using FasTrak Cashless Catering.

Quick and easy identification of students using smart cards, fingerprint biometrics or PIN-pad using the industry leading BioStore Identity Management system

Cashless Catering

Simple and attractive layout of products and menus allows fast and accurate processing of purchases, using high-quality touch screen tills including wireless, portable and hand-held devices.

Balance is displayed for students and photographic lookup is included as standard.

- Simplified administration with reduced cash & cheque collection
- Reduced queuing frees up time for staff and students
- Payment points using touch screen tills with keypad, card or Biometric Identification
- Optional touch screen till for break time snacks
- Accurate information fed down from school MIS

Online School Meal Payments for Parents

FasTrak uses a web-based payment portal that enables parents to make secure online payments to the cashless catering system via debit/credit card or PayPoint. The use of this system reduces staff administration time and the amount of cash held in school offices. Cash Loaders and Cheque Processing are also supported.

Free School Meal (FSM) Management

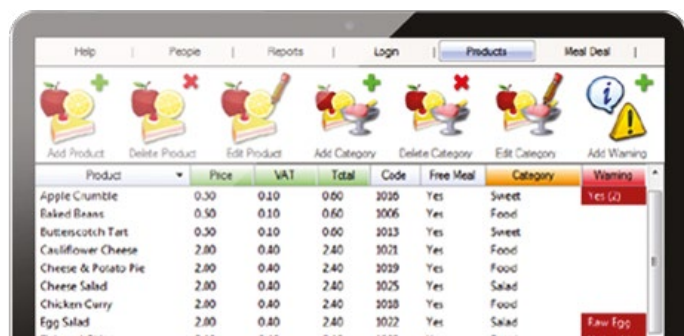

Management of Free School Meals happens automatically through information fed down from the school's MIS.

Full accounting & reporting options ensure accurate and efficient reclaiming of Pupil Premiums with full audit trails.

Full product management with multi-pricing & categorisation

Warning & alert management

Purchases at the till or pre-ordering stations will show alerts and prevent purchases where specific dietary and allergy requirements are enforced. Alerts are fully supported across all products and students.

Grab-bag management

Using self-service tills, staff and students can pre-order a grab-bag of their choice, pay from their account and receive a receipt. Catering staff can prepare the bags for collection based on a simple to understand report.

FasTrak integrates with existing school management systems

All staff and student information is automatically downloaded from the school's MIS, including FSM entitlement and photographs, reducing the administrative burden and possibility of errors by ensuring accurate & up-to-date information is available to caterers.

- Sync all devices with FasTrak application
- Deliver accurate & up-to-date information
- Full control of all meal & student data
- Create extensive reports to monitor school meal uptake

Manage costs through accurate and extensive reporting

PIB	PLU	Category	Description	Sales Qty	Refunds Qty	Percentage Share
1011	2520708					
1021	2520708					
1004	2520708					
1000	2520708					
1001	2520708					

Access all data recorded on product sales, system usage and student accounts with information break-down available on many categories including year, class, gender, product type and many more. Banking and reconciliations with full end-of-day reporting makes sure everything adds up at the end of each day. Catering managers can accurately see school meal uptake for better future meal planning.

Benefits to schools

- Reduced staff administration time
- Fully auditable payments
- Reliable and secure payment system
- Less cash held on site, reduced possibility of bounced cheques
- Funds are regularly settled to the school's nominated bank account
- Provide clear, concise income reporting

Benefits to parents

- Quick online payments, with the option to remember card details for future transactions
- Payments can be made at any time
- View transaction history
- No need to send cash or cheques to school
- Get receipts for online payments, and optionally set up email/text alerts for cash, cheque, or PayPoint receipts
